Registration Form – International Documentation Training

How many times have you just filled out a document not knowing what all the required fields meant and copied it from a prior document simply because that has always been how things are done? Have you ever been told that your shipment is “stuck” in customs because of lack of information or a document that is missing or not filled out correctly? How many times has your company been charged for unnecessary “documentation” fees or held up on a shipment because the documents had to be corrected? If you just want to make sure you are filling things out correctly or you have questions, problems or delays due to documentation problems this training program is a must for you.

Program overview

This program will help you understand when and how you should be filling out certain international documents listed below. We will go through each document, step by step, and you will know where to go and what to look for in your own documents to be able to fill them out accurately and know when they are required. Many companies are exposing themselves unnecessarily to shipment delays, Customs audits and demurrage charges because there is incomplete or inaccurate documentation for the shipment. Why not learn what documents you should be filling out and how to do so accurately so you can keep your customers, distributors and company ahead of schedule?

Topics covered
